Recreation District Election Assured For Lemon Grove-Spring Valley Area

NEARLY FINISHED — Kenneth Golden Co. expects to finish the Imperial Avenue improvement project in Lemon Grove more than a month ahead of schedule. Here Albert S. Gardner (left) superintendent of paving, and Jim Harris, project superintendent, are overseeing the last paving being done on the job. With 50 days still remaining under the contract, the crew had only some curbs for islands and miscellaneous bits of work left to be completed.

Petitions Certified By Voters Registrar To Clerk of Board

Hearing to Offer Petitioners Chance To Get In or Out

An election on the formation of a recreation district "early in December" was assured this week when V. J. Dorman, counsel for the Lemon Grove Coordinating Council, filed petitions for its formation with the County Board of Supervisors.

The petitions contained more than 1,100 names and these were checked Tuesday by the office of the County Registrar of Voters. Deputy Registrar George Wren OK'd them for sufficiency.

The supervisors set October 2, at 2 p.m. as the time for hearing. According to Dorman, petitioners for inclusion or exclusion will be heard at this time. Following the public hearing the date of election will be set. If it is successful, funds for the district will be available at the start of the next fiscal year (July 1, 1960).

The Rev. E. Walter Smith, president of the Coordinating Council, said he was gratified by the response which accompanied the circulation of petitions. "The Coordinating Council," he said, "now has the further job of informing and educating so that all citizens may know what they will be asked to vote upon."

He said future Council meetings will be called for that purpose. "We will bend our efforts to successfully complete the Recreation District election before taking on other needed community projects," he said.

The Council has envisioned several recreation areas for the district, a majority of them to be on school playgrounds. A swimming pool site, already paid for by local residents, probably will be developed, as will a park site given to the community by the County Board of Supervisors. Final decision for these projects will be up to the citizens who will speak through five recreation commissioners who will be elected at the time of the district election. Commissioners' positions pay no salary. Anyone residing within the District is eligible to run.

The boundaries of the District as petitioned for are roughly Massachusetts Avenue in Lemon Grove to Helix Street in Spring Valley. The north-south boundaries are the Freeway and Jamacha Road.

La Mesa Department Extinguishes Blaze On Grove Hillside

A brush fire on a hill north of Lemon Grove this week was handled by the La Mesa Fire Department.

Lemon Grove Fire Chief H. L. Hensley said that the hillside area only recently was annexed to La Mesa, taking it out of the Lemon Grove jurisdiction.

"We had about 100 phone calls about the fire, though," he said.

The local fire department a week ago Monday answered its first fire call in weeks. Firemen went to the home of A. H. Rehberger, 8118 Baldwin Rd., and extinguished a fire in an automatic dryer. There was no damage to the house.

Saturday, they put out a blaze in a car at 2950 Main St. belonging to E. H. Heckethorn. Damage was estimated at \$750.

Engineer Bernard Griggs and Firemen Bob Adams and Spencer Griggs "fight a fire" on paper in the headquarters of the Lemon Grove Fire Department.

Fire Department Launches Sixth Annual 'Junior Fire Chief' Program

The Lemon Grove Fire Department this week launched its sixth annual "Junior Fire Chief" program in the schools of the district.

Under the program, according to Capt. Harry Alexander, a "Junior Fire Chief" is chosen in each school up through the junior high school. In addition, each room has a "junior fireman" who is responsible for working with the teacher in assuring that fire drills are carried out properly.

The Junior Fire Chief observes all fire drills and reports any faults to the principal and/or Capt. Alexander. Then, the principal and the fire captain work out a solution to whatever problem has arisen in getting the school's children quickly and safely out of the school in case of a fire.

The launching of the program is timed to coincide with National Fire Prevention Week, which starts Sunday, Capt. Alexander said.

As part of the observance of fire prevention week, the fire department will stage "surprise" fire drills at each school. Not even the principals, the captain said, will know when a fire truck will roll up and the alarm will sound.

"This is the spectacular part of our fire prevention program," Alexander said. "The unspectacular part is something that we carry on all the time."

"We fight fires right here in the headquarters of the fire department—on paper."

Alexander explained that an inspection team from the department goes to each business building in the district. The men note the type of construction, the location of all electrical and gas meters and switches, the most valuable areas, the relationship to adjacent buildings, the possibilities of danger to life.

"We take all this information," Alexander said, "and we draw up a fire-fighting plan. We 'fight' the fire right in our office. Then we go out with the equipment and we 'fight' the fire again out in front of the building."

"This way, if a fire ever does break out in a business building in Lemon Grove, we already have fought that fire twice before the alarm rings. When the alarm does ring, we go out and fight the fire the third time—this time with water and chemicals."

Next week, the department hopes to begin passing out stickers for telephones in local homes, with the emergency number of the fire department on them. Special "trailers" will be shown in local movie houses, telling about fire prevention week, and giving the fire chief's name and the department's phone number.

"We are trained to fight fires," Capt. Alexander said. "It's a lot cheaper to fight them on paper. We hope that we can do most of our fire fighting that way."

The DIMMER VIEW

by MAX GOODWIN

The season is here again for giving to the United Fund organization.

Whatever the citizen decides to give, if anything at all, it should be a matter of conscience.

But this is seldom the case anymore. Nowadays, failure to give is economic self defense.

All of us are hit almost weekly by splinter group health and aid organizations whose purpose it is to give aid to sufferers.

Additionally, major groups of citizens solicit us on regular schedule. This newspaper publicizes them all, but it would take a family with the heart of a bookkeeper to be able to answer the needy's call and still keep the family budget on an even keel.

To help families measure their "fair share" of community giving, most organizations joined the United Fund group by which proportionate shares of public giving may be distributed. Many groups "splintered" off for one reason or another and are conducting their own drives.

Independent drives are profitable because we, as citizens, are generous to a fault. The Philadelphia Enquirer last year sent a group of reporters out with collection cans labeled as follows:

"National Society for Twinkle-Toed Children."

"American Communist Refugee Fund."

"Nazi Emblem Society." (with swastika)

"Heroin Fund for Addicts."

Of the hundreds of persons approached, including policemen, not one questioned the purpose of the drive. All were patently ridiculous. Three of four persons approached, contributed. Many others gave without being approached. Few people, it seems, question the merit of charity. This proves that we Americans are generous — and trusting.

There is a pat phrase which might be employed that will meet the conscience requirements of the giver. Be prepared to properly say, "I'm sorry, we give only the United Way."

This answer, if given frequently enough, will bring all drives back into one.

No one need fret about turning down the solicitor for a pet cause. Nor need anyone fear that a cause dear to him will suffer damage due to lack of support.

The minute that polio, or heart, or cancer, or crippled children or adults, or any other "independent" drive begins receiving less on its own than may be reasonably expected through the United Fund, it would lose neither time nor dignity in joining, or rejoining the United Fund.

This will reduce the overall cost of collection, making your charity dollar do a bigger job.

There has been much criticism of our educational processes here in America and whether it is justified or not is often hard for the average parent to assess.

It isn't too hard to evaluate Little Johnny against others in the same school system but comparison with students of other

California Highway Commission Considers Plan For Routing of Freeway Through Spring Valley

The California Highway Commission this week took under advisement the adoption of a freeway routing for the relocation of 5.2 miles of Highway 94 in Spring Valley.

State Highway Engineer G. T. McCoy recommended a route which generally parallels the existing Campo Road but swings north or south of it in various places.

Plans of the division of highways call for construction of a six-lane freeway from the junction of the present Freeway 94 and Campo Road to near Rogers Road at the western edge of Casa de Oro. There, the freeway would drop to four lanes and continue on east across the Sweetwater River 0.1 mile south of Jamacha Junction.

Highway 94 would be improved as a modern two-lane highway from there southeast toward Campo. Sufficient rights of

way would be purchased to permit future additional lanes.

Cost of the initial construction, McCoy said, is estimated at \$9,790,000, including costs of rights of way. Start of construction would depend on the availability of future highway funds.

McCoy told the highway commission that the recommended route:

1.) Is the shorter of the two studied alternates and involves

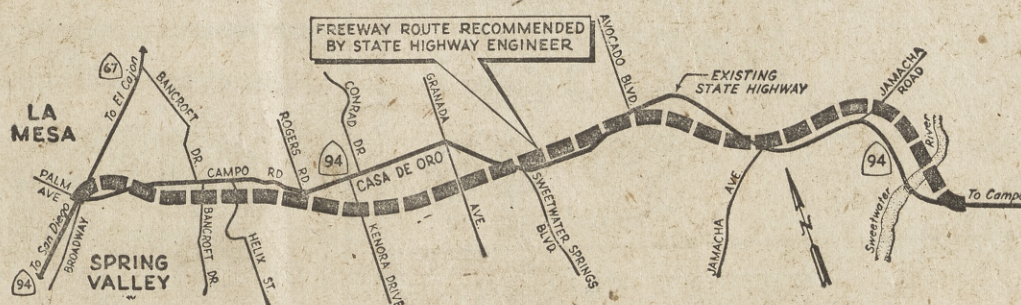

lower estimated costs, the other alternate being located farther south in the Spring Valley area.

2.) Will provide superior traffic benefits and result in better traffic service to the community.

3.) Will cause disruption to fewer existing improvements, both residential and commercial.

4.) Is preferred by local officials.

Irrigation Chief Dies of Injuries; Services Held

Ruben M. Levy, 70-year-old president of the board of directors of Helix Irrigation District, was buried Tuesday.

He died Saturday evening of injuries incurred in an automobile accident on September 9 near Coyote Wells in Imperial County.

Carl B. Quicksall, 71, retired principal of Grossmont High School, injured in the same accident, is in "good" condition in Mercy Hospital.

Levy had been a member of the Helix board for 31 years. He retired as a La Mesa Hardware dealer in 1945.

A World War I veteran, he was awarded the Distinguished Service Cross and the French Legion of Honor. He won a battlefield commission in the infantry. At one time he played major league baseball and was active in local sports circles.

Funeral services were held Tuesday morning in the La Mesa chapel of Erickson-Anderson Mortuary, with the local Masonic lodge in charge. The American Legion officiated at graveside ceremonies at Fort Rosecrans National Cemetery.

Governor Brown To Kick Off Dollars Drive

Governor Edmund G. Brown will be in San Diego this Thursday to kick off the statewide Dollars for Democrats campaign.

At 7:30 a.m. he will start the door-to-door drive for contributions in San Diego at Moorland Drive and Buena Vista in Pacific Beach.

State Senator Hugo Fisher (D-San Diego) will work the Crown Point precinct with the governor.

Assemblyman Sheridan Hegland (D-La Mesa) also will participate in the drive with Gov. Brown. After working with the governor in the Crown Point precinct, Hegland will return to his own district and lead the drive there.

In the Lemon Grove area, Jack Saucier, 1631 Woodrow, will head the drive.

Sheridan Hegland will join the Lemon Grove Democratic Club in the "Dollars For Democrats" project this week in Lemon Grove.

Couple, 12 Children Celebrate Lido's Opening

Tables were turned, in a manner of speaking, when Lido's Italian Restaurant marked the re-opening of their expanded, refurbished eatery.

Nicky Farella, Lido's manager, opined it would be a nice gesture if guest of honor for the event was the biggest family he could locate. He located one right under his own nose. It was the family of Bob Rohner, 6410 Quillon Street, Linda Vista, who is repairman for the restaurant's music box opera-

tors. Rohner is also foreman for the Pacific Telephone Company. His family total is 18.

The couple, with 14 of their 16 children (pictured above) donned their bib-and-tucker and repaired to Lido's last week for the "first time our family has ever eaten together in a restaurant." Linda, 7, said "It was like dreaming."

Waitresses said the children were extremely well behaved. "Not a peep out of a single one of them," one said. Farella said

they "ate a lot of food and that made me happy."

Children are: Peter and Paul, 4 month old twins being held by Mr. and Mrs. Rohner; Edward, 16 months; Elizabeth, 2; James Gregory, 3; Roberta, 4 and Anne, 7.

Also: Thomas Mark, 8; Christine, 9; David 10½; Thera, 12; Mary, 13; Lambert, 16, and Robert, 17.

Not in the photo are Sharon,

15, away at Notre Dame Prep School, and John, 15, at St. Anthony's Seminary.

The menu, Mrs. Rohner said, consisted of spaghetti, pizzas, barbecued spare ribs, barbecued chicken, meat balls and desserts, all "on the house."

Mr. and Mrs. Rohner also had a bottle of champagne. "It was another Christmas for us," she said.

Lions to Hold White Cane Days

The Lemon Grove and Spring Valley Lions clubs will hold their annual "White Cane Days" October 9 and 10 to raise funds for their aid to the blind, Emmett Marshall, Lemon Grove Lions president, said this week.

All funds raised by the Lions will be used locally, Marshall said. The two clubs, along with clubs in La Mesa and El Cajon, have provided a room at Grossmont Hospital for eye examinations.

Club members will sell miniature white canes for any price that the purchaser will pay.

Chula Vista Official To Address Club In Lemon Grove

Peter DeGraaf, city councilman and former mayor of Chula Vista will address the Lemon Grove Men's Club this Friday.

He said that he would discuss problems faced by his city's government in comparison to problems that might arise in Lemon Grove if the community should become an incorporated city.

At last Friday's meeting of the Men's Club, John Dail—Lemon Grove insurance man—told of the eight months he served in Sacramento as chief deputy to Bert Betts, state treasurer.

Dail discussed the problem of keeping the state's funds constantly invested so as to take advantage of the interest-earning capacities of the funds.

He said that the most practical approach at present is one being worked out to use the \$1-billion state employees retirement fund for financing veterans home and farm loans instead of having private lending agencies buy the veterans' bonds, thus leaving these agencies with enough capacity to buy other state bonds.

Dail said that he resigned as deputy state treasurer to return to his private business here because that business was suffering in his absence.

The DIMMER VIEW

(Continued)

nations has always been done with nebulous measuring sticks. It was heartening to see NEWSWEEK earlier this month lay it on the line.

In Germany, it avers, third graders are solving orally this sort of problem: 169 divided by 4 plus 24 divided by 8 multiplied by 9 plus 120 plus 13 divided by 30.—(answer: 7)

In California Johnny's contemporary is working with pencil and paper on problems little more difficult than; 7 plus what equals 10?

While our third grader is chewing his pencil over 895 minus 180, a Yugoslav student is doing it mentally this way: Since 180 equals 100 plus 80, the problem becomes 895 minus 100 minus 80—that is, 795 minus 80 which is 715.

Such sobering examples as the above recently occupied the 1,420 member Council for Basic Education, a group dedicated to building up the three R's in American schools. A study of 20 different European countries disclosed such differences in curriculums as:

Polish and Swedish youngsters learn their multiplication tables to ten in the second grade, the average American pupil in the fourth.

British and French kids get long division as third graders, most Americans in the fifth.

Sixth graders spend six hours a week on arithmetic in Belgium; five in Hungary; three plus in the U.S.

The average European child gets as much math in six grades as an American youngster does in eight.

Council recommendations: more arithmetic in elementary school, earlier introduction to algebraic and geometric concepts, more oral work, and a drastic cutback in "informational arithmetic"—like household budgeting, insurance and the like.

One of the new laws passed by the last Legislature won't affect you or me . . . but it will play hob with the advantages previously held by the blushing maiden who has gotten herself engaged.

The new law, developed, I think, to aid Dan Cupid, automatically cancels marriage licenses 90 days after issuance . . . unless they are used.

County Clerk R. B. James warns that couples should not apply for license to marry unless each of the pair is reasonably certain the other will measure up to his matrimonial commitment.

There is a tender ploy, 'tis said, used by some maidens that will be lost forever under the new law. This permitted the chick to play reluctant right up to the wedding ceremony. Now she's working against a deadline. She'll have to go on through with the wedding within 90 days or she may have to hook him again. That cancels the most fun the female of the species may have . . . that of baiting the breathless groom to be.

Some of the enchantment becomes lost as soon as the social mechanism tightens around the couple when the wedding date is inexorably set. Since the bride-to-be will no longer have the privilege of saying "maybe," she might as well say "yes" tonight and have the wedding tomorrow.

The 90 day feature of marriage licenses may make it an easier job for your county clerk, but it robs our tender maidens of much of the pre-nuptial fun.

Valley Chamber Sets Recreation Meeting

The Spring Valley Chamber of Commerce will hold a "recreation district information" meeting at 8 p.m. October 26, President Jess Hodge said his week.

Hodge presided at a Monday night meeting of the Chamber—it's first since June—and led a somewhat heated discussion of plans for forming a recreation district which would include all of Lemon Grove and that part of Spring Valley which lies west of Helix Street.

"We have been sidestepped, left out and ignored," Hodge said after hearing a report by board members J. C. Danner and Peter Jesperson on their visit to a meeting last week of the Lemon Grove Coordinating Council, sponsor of the recreation district project.

Milton Lear, president, and Mrs. Chester Tamila, secretary, of the Lemon Grove Taxpayers Association attended the Chamber meeting and Lear added his voice to that of Danner in saying that "nobody will give out any information" about the proposed district.

Lear declared that a complete budget should be drawn up, listing all proposed purchases and all proposed non-purchase expenses of the district before it is offered to the voters in an election.

Chet Smith, Chamber board member, said that he had obtained information about the proposed recreation district and said that:

1) The boundaries for the proposed district were set up to cover the area from which Mt. Miguel High School will draw its students in 1961 (after a second high school is constructed in the Sweetwater Valley);

2) A site owned by the Swimming Pool Association, which would be used by the new recreation district, is closer to the eastern edge of the district (in Spring Valley) than it is to the western edge of Lemon Grove;

'Fire Prevention Is Your Job,' Says Valley Chief

"Fire prevention is your job . . . everybody's job," says Spring Valley's Fire Chief Donald Clark as he and his department prepare to help observe Fire Prevention Week, Oct. 4-10.

Chief Clark said that in Spring Valley there will be fire drills and inspections at the school and a fire truck will be sent to each school, that the children may get a good idea of the fire fighting equipment.

Fire Prevention Week actually dates back to Fire Prevention Day which was inaugurated and first observed throughout the United States on Oct. 9, 1911, according to the National Fire Protection Association.

The observance began when the Fire Marshals' Association of North America (now a section of the NFPA) suggested that the 40th anniversary of the Great Chicago Fire be set apart for bringing before the public the lesson of fire prevention.

In August, 1916, the National Fire Protection committee or Fire Prevention Day was formed. And in 1920 this committee succeeded in persuading President Woodrow Wilson to issue the first National Fire Prevention Day Proclamation. However, it was not until 1922 that the whole week containing Fire Prevention Day (Oct. 9) was officially proclaimed "Fire Prevention Week" in the United States and Canada.

Need for fire prevention is urgent, says the NFPA. Every day in the U.S. there are about 1,500 home fires, 31 deaths by fire, 155 store fires, 110 factory fires, 110 barn fires, 12 school fires, five hospital fires and nine church fires. The U.S. fire loss total in 1958 was \$1,305,000,000 in approximately 2,000,000 fires.

Most deaths by fire involve families in the home. Many are suffocated by smoke and fire gases without actually being burned. Many deaths are caused by people falling asleep while smoking or re-entering burning homes to rescue pets or personal possessions.

The NFPA says there are 840,000 fires annually in the United States and 80,000 in Canada. Some of the chief causes of these fires are: smoking and matches; defective, overheated heating or cooking equipment; electrical; unknown; rubbish, flammable liquids; children and matches; chimneys, flues; lightning; open lights, flames and sparks.

MATH TEACHER ON SCHOLARSHIP

Leonard Busch, business education and math teacher at Helix High School since 1957, is studying on a scholarship at Columbia University this year. At Columbia, a special institute for people interested in counseling and guidance has been set up under the National Defense Act, and Busch, on leave from the Grossmont District, is studying in this institute.

Spring Valley Group Fights Highway Route

A group of businessmen banded together this week as the Spring Valley Business and Property Owners Association in order to fight the adoption of a northern route for a new freeway through Spring Valley.

John Abbott, real estate dealer and secretary of the new association, said that he sent a wire to the state highway commission in Sacramento on Tuesday urging the commission to drop its consideration of the proposed route and begin consideration of an alternate.

He said that his association has 100 signatures on a petition which will follow the telegram. In the petition and an attached proposal, the association asks the state highway commission to:

1) Abandon plans for a freeway route that would roughly parallel Campo Road, because that route would practically eliminate the growing business district in the area of the intersection of Campo Road and Bancroft Drive and would damage an area of fine homes about a mile east of there;

2) Adopt an alternate route for the freeway that would take off from the existing Freeway 14 near Grove Street in Lemon Grove and swing down near Sweetwater Road and then across Spring Valley to Campo Road east of Casa de Oro.

3) Make the proposed Beltline freeway, which is to come up Sweetwater Road from near Brown Field on the border, swing over and tie into the route proposed above instead of having the Beltline freeway swing north through Spring Valley to connect with Highway 80 near Grossmont.

Puncture Bugs

Assault Valley

Laundromat

The only good bug is a dead bug. At least that is what Howard Robinson, partner in a laundromat in Spring Valley, believed recently when a swarm of newly hatched mosquitoes descended on the laundromat.

Robinson was just about to go home when he noticed hundreds of mosquitoes, attracted by the light inside, covering the window and the screen door and even the inside of a public telephone booth close by.

Fortunately one of the markets was still open and Robinson's son was sent for a spray bomb. The slaughter was terrific and in less than five minutes there was a heap of mosquitoes on the sidewalk, who had never been given a chance to know the joy of puncturing a human arm.

"Think how many Spring Valley babies were saved biting to night," murmured Robinson as he took a broom and began sweeping up the debris, "to say nothing of my own preservation, for I, unfortunately, am very attractive to mosquitoes."

A NEW QUEEN? — Pretty Wilma Millam, of Lemon Grove, shown above, is one of the contestants in the queen contest of the first annual Cavalcade of Yesteryear, which is to be held in San Diego, October 25. Miss Millam, 17, lives at 851 Cardiff Street. The event is being sponsored by the Harbor and Southeastern Kiwanis clubs, and the San Diego Regional Group of the Horseless Carriage Club.

Farm Bureau To Study Costs Of Schools

The San Diego County Farm Bureau will study costs of local school construction and administration, it was decided recently at a meeting of directors of the farm organization at the San Diego Chamber of Commerce.

Appointed as a committee to study school costs were W. F. Crites, of Escondido, chairman; R. R. Judson, of El Cajon; Hart Dunham, of Lakeside; William Rupe, of Fallbrook; Granville Martin, of Descanso; Robert Stephens, of Del Mar; C. F. Iverson, of Valley Center; James Gill, of Vista; and Oscar Luelf, of Ramona.

Elwood C. Moore, county farm advisor, reported that new varieties of Bermuda grass, also known as "devil's grass," do well here and rarely produce seed.

Ed Pressey, of Vista, was re-elected chairman of the Bureau's Natural Resources Department.

There is enough water in California to support a population of 40 million people, more than three times the present population, Hans Doe, a member of the Vista Irrigation District's Board of Directors, reported.

"We are not talking about taking water from other areas of California," Doe said. "We only want to conserve water so there will be enough for all parts of the state."

Critical Months For Avocados Are Here Now

October and early November are critical months from the standpoint of avocado irrigation, reports University of California Farm Advisor Don Gustafson. The first 18 to 20 inches of soil in avocado orchards should be kept moist at all times during this crucial period.

This year, Gustafson says, many orchards have trees carrying heavy loads of fruit. If the trees become stressed for moisture at any time during the next few months, a loss of fruit could result. If a deep irrigation has not been applied recently, it should be done soon. This permits a flushing of the salts from the first foot or two of soil. Poorly drained soils should be handled carefully to prevent water-logging.

It is recommended to irrigate once a week on the lighter textured and shallow soils since these types become dry in a short time. Because a large percentage of the avocado roots are found in the upper 18 to 24 inches of the soil, it is important to have a readily available supply of water. Keeping the upper soil at a fairly high moisture level has the desirable effect of supplying the trees with easily available moisture, and at the same time maintaining the salts in a dilute state which does not affect the trees so seriously.

Tipburn, or salt injury, begins showing in the fall months. Hot weather causes a rapid depletion of soil moisture. Because the fall months are usually one of hot, dry and windy conditions, it is especially important to have moisture in the soil.

Rotary Clubs To Help Annual Goodwill Drive

The 22 Rotary clubs of San Diego County have been asked to furnish leadership in the annual Goodwill Goodturn day on Saturday, October 10, in which 22,000 Boy Scouts will participate, Richard A. Nelson, president of the Goodwill Industries of San Diego County, announced this week.

The annual event — county-wide — for the first time is co-sponsored by the Rotary Clubs, the Boy Scouts, the San Diego Chapter of the California Trucking Association, and the Goodwill Industries.

The Scouts will distribute 150,000 Goodwill bags to every home in the county this Saturday and will advise the householder that they will return and pick up the bags October 10, filled, it is hoped, with discarded, usable items such as clothing, electrical appliances, and other household goods. The bags are to be put on the porch so that the pickup can be made speedily.

Through the rehabilitation of these goods by the 200 handicapped workers at the plant at 402 Fifth Avenue, in San Diego, it will be possible to employ at least 20 more handicapped workers during the next year, according to Dr. Myron Insko, executive director of Goodwill Industries.

Through the efforts of the local chapter of the California Trucking Association who are furnishing the trucks, and about 35 members of the Teamsters union, who are donating their services to drive the trucks, the thousands of bags will be collected at key collecting centers in the county on October 10, and taken to the docks of the Goodwill Industries in San Diego.

Ernest Briden, a past president of the Old Mission Rotary Club, is general chairman of the Goodturn Goodwill day event.

A favorite method of mine for irrigating sweet peas is to dig a furrow, fairly close and parallel to the row of sweet peas. Then put the hose at one end and let the water run slowly until the furrow is full. Thus the water seeps through to the roots of the plants.

You can also feed your sweet peas in this way. Put the sweet pea food into the furrow and let the water carry it through the soil to the roots. For some reason, giving food and water by this method has been most satisfactory.

When you have to start spraying your sweet peas, I recommend a two-purpose spray that is both a fungicide and an insecticide, since sweet peas in our area are inclined to suffer from fungus as well as insects. And if they are attacked by soil insects, remember that you can treat the soil with a copper-ether soil disinfectant without injury to the little plants.

Mt. Miguel Upsets Escondido 27-19

by Bill Ott

Saturday night the Mt. Miguel High School Varsity football team scored a minor upset victory over the Escondido Cougars 27-19 on the Escondido High School turf.

With 4 minutes of playing time gone in the first quarter Mt. Miguel recovered an Escondido fumble and marched down the field when Eric Lindsten went over into paydirt from 4 yards out for the Matadors. The point after touchdown failed. Mt. Miguel held the Cougars from scoring the rest of the first quarter, and the Matadors failed to score also.

In the second quarter of play the Matador defense could not stop the Escondido attack and the Cougars scored 2 touchdowns and 1 PAT.

In the third quarter Lindsten found running room and ran 19 yards for a touchdown and Ron Snow went over for the PAT. The Miguel defense held the Cougars scoreless in the third quarter. In the fourth quarter Escondido picked up one touchdown and the Matadors two. Snow's 10 yard run and Dave Enos' 2-yard rush picked up 12 points. Snow went over twice for the PAT. All of the Miguel touchdowns were by rushing while Escondido received 2 by passing and 1 by rushing.

Score by quarters:

Mt. Miguel ... 6 0 7 14-27
Escondido ... 0 13 0 6-19

Other Metro League Scores:

Grossmont 19-Helix 0
Sweetwater 13-El Cajon 0
Chula Vista 31-Hilltop 12

Non-League:

El Capitan 14-Mar Vista 13

Escondido Nips

Miguel Juniors

Friday afternoon, the Escondido Junior Varsity football team nipped the Mt. Miguel Junior Varsity 19-13 on the Mt. Miguel field. This was the first game played on the new grass field.

Mt. Miguel Junior Varsity tangles with the Chula Vista Bees on the Chula Vista High field Friday afternoon, October 2 at 3 p.m.

Christian Scientists To Continue Series On Local Television

The Christian Science Church will continue its televised series, "How Christian Science Heals," over Channel 10, San Diego, at 8:30 a.m. on Sundays. This is a filmed presentation with the filming being done in Hollywood.

The series is not designed to carry denominational promotion or doctrine, but to show the healing, redeeming and transforming power of prayer, as accomplished in Christian Science. The motive is to bring the encouragement of healing through prayer to all who seek or desire to know more of this approach to the problems of human life and the woes of mankind. Those relating their experiences are the individuals who actually experienced the healings and regenerations, and are never substituted for by others.

The moderators are chosen from a wide field and include William H. Waite of San Diego.

Matadors Outrun Escondido Tracksters

The Mt. Miguel Matadors Cross country team edged the Escondido Cougars team 29-30 (lowest score wins) on the Escondido course. This was the first Metro League meet for both teams. Mt. Miguel meets Chula Vista High at Chula Vista Friday afternoon October 2.

Friday Action

Metro League action Friday October 2 finds Mt. Miguel at Chula Vista, Escondido tips off against Grossmont at the El Cajon Sports Arena at Gillespie Field, El Capitan goes to Sweetwater, with El Cajon at Helix, and Hilltop travels to El Centro for a non-league game.

West Downs East In Pre-Season Grid Carnival

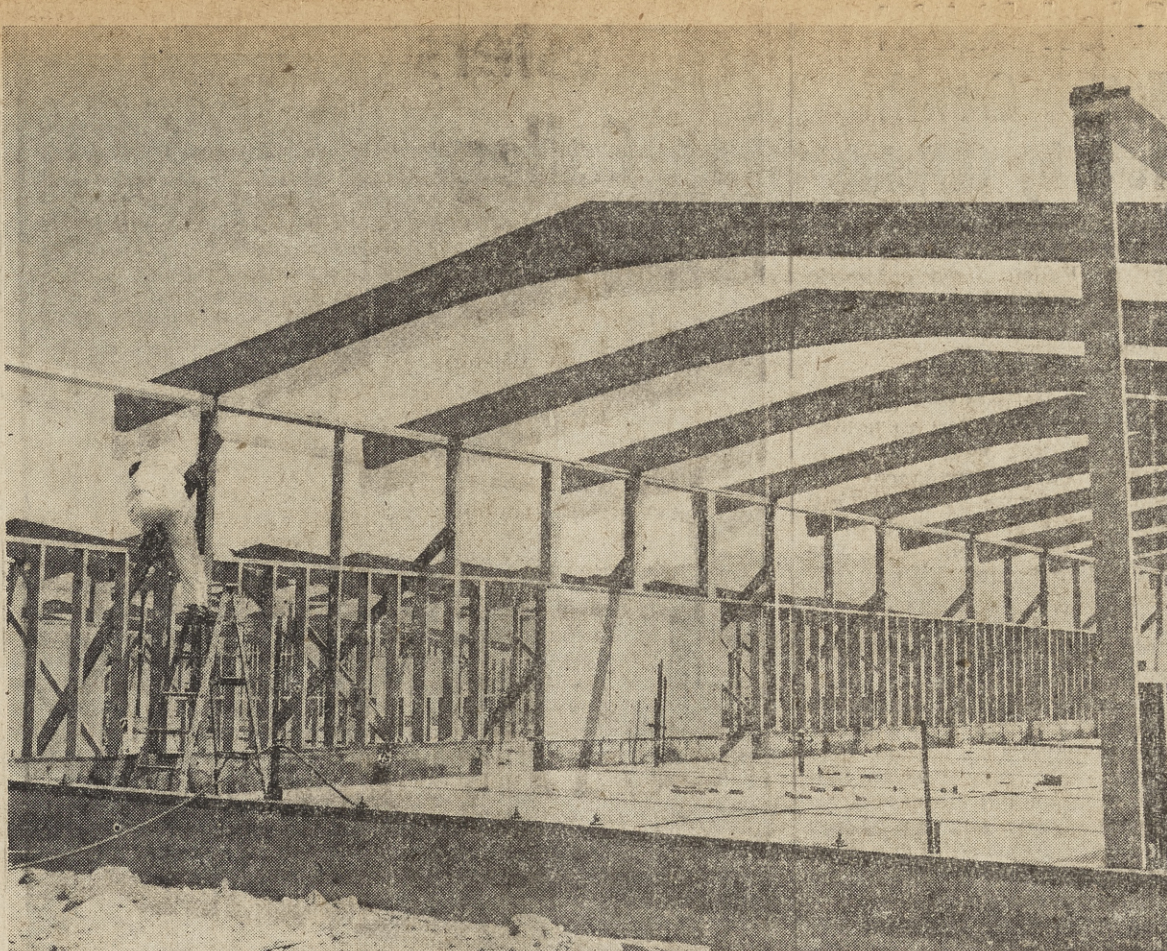

The West downed the East in the 6th annual Metro League Carnival held last Friday night at Aztec Bowl. In the opening tilt El Capitan (E) and Escondido (W) battled to a scoreless tie. In the second game Merrill Eacker of El Cajon (W) intercepted a Grossmont (E) pass on the El Cajon 10 yard line and raced 90 yards across the goal line as the gun sounded ending the game. In the final Helix (W) and Mt. Miguel (E), host school for the Carnival, fought back and forth to a scoreless tie.

In the second Carnival held at Chula Vista High for the South Bay Area school of the Metro League, Chula Vista nipped Sweetwater 7-0, and Mar Vista smashed Hilltop 14-0 in the 15 minute games. Mar Vista is a member of the Avocado League and was the visiting school for the evening.

Pacific Title Co. In New Building

William "Brad" Moeser, vice president and general manager of the San Diego branch of Pacific Coast Title Insurance Company, has announced that all operations of the San Diego division of the company have been moved to a new building at 5952 El Cajon Blvd. The new building is of modern design encompassing 12,000 square feet of office area.

Moeser also said that Pacific Coast Title Insurance Company's personnel has now been nearly doubled. The new office building has been designed specifically with the dynamic growth of San Diego County in mind, so that in the future, Pacific Coast Title Insurance Company will be able to expand further in its new plant.

PROGRESS — Construction work is proceeding rapidly at the Avondale School site in Spring Valley. Laminated beam construction was selected on the basis of structural stability, economy and attractiveness. The school at 8401 Siamsbury St., Spring Valley, is being built at a cost of \$324,200 by the Cotton Construction Co. of National City. Architect is Clyde Hufbauer. The 16-classroom unit is expected to be ready for occupancy by mid-December.

REACHES ONE MILLION

MINNEAPOLIS (Spel)—More than 1,000,000 customers across the country are now being served by Investors Diversified Services, Inc. Joseph H. Fitzsimmons, president, announced this week. The aggregate number of customer accounts on August 31, in the company's consolidated Investors Group was 1,000,387, he said. Earl F. Keyes is local representative of the firm.

Mt. Miguel to Try Air Cadet Program

The Grossmont Union High School District Board of Trustees has approved substitution of a Civil Air Patrol program on an experimental basis at the Mt. Miguel High School, replacing the California Cadet Corps program.

Charles Mosse of Mt. Miguel High School said, "The Air Education program will be intellectually more stimulating than the old military science."

The educational program can be supplemented by the creation of a Cadet Squadron which would make the students eligible to compete for college scholarships and to compete for positions in the cadet foreign exchange program whereby selected students get a two-week trip to some foreign country through the Air Force. In addition, the CAP holds summer encampments under strict military control at an Air Force Base to which any cadet can go.

Mosse stated that the Air Education curriculum will be organized under six major topics: aviation and you; aircraft in flight; power for aircraft; airports, airways and electronics; navigation and the weather; problems of air power.

Marksmanship opportunity is available through the Director of Civilian Marksmanship and, of course, drill is a part of the program. There will be an opportunity for participation in a Na-

tional Drill Competition. There will also be an active chaplain's program. There will be projects designed for skills in leadership, weather, radio, photography, and book reviews. The student is presented with the technical challenges of the coming air age and the impending social changes.

This program can be expanded to include girls (cadettes).

At the end of the year a review will be made of the program and reported to the board with the possibility that the program can then be expanded to include other schools in the district.

School District Future Growth Told by Officials

A picture of the future growth and problems of the La Mesa Spring Valley School District was presented last week at a meeting of the Administrative Council.

Fred Lance, business manager of the district, said that the average cost of educating an individual child last year (based on average daily attendance) was \$345. This figure in a \$4 1/2 million budget is expected to be \$355 for the current year. Factors adding to the cost per child have included increased salaries with future increases anticipated based upon normal salary increments.

Of last year's \$345 figure, the state's share was \$205 and the local taxpayer's... \$140. (The state's share may rise to \$216 this year as aid programs are tapered). Other sources of revenue were discussed at the meeting including added state aid for site improvements.

Dr. Ted Dixon, associate superintendent, said last year's projected adjusted enrollment figure for this year of 11,355 surely will be met. School opened with 10,163 enrolled and by Sept. 21 was up to 10,525. Approximately 916 new homes are to be completed and occupied in the district within the next 60 days, homes which will account for most of the expected gains. Avonale, Brier Patch, Casa de Oro and Spring Valley Elementary schools have room to accommodate added students, Dr. Dixon reported.

FASHION SHOW — Mrs. Gene Cramer, Mrs. J. H. Gill and Father John J. Verhoeven of Santa Sophia Catholic Church in Spring Valley discuss decorations being planned by the Women's Club of the church for a fashion show scheduled for 12 noon, Oct. 10, in the Veterans Memorial Building in Balboa Park.

on the Social Scene

Hospital Auxiliary Holds Annual Awards Luncheon

Grossmont Hospital Auxiliary members gathered 200 strong at a luncheon meeting recently at El Nadadero Club in El Cajon to award certificates for volunteers giving over 100 hours of service last year.

Mrs. James V. Dickson, awards chairman, reported that 126 members gave a total of 32,230 hours last year. Six members gave over 300 hours each, they were Mmes. M. L. Baker, George Conrey, Arthur Elliott, Frank N. Evans, Lester Louis and John Terhorst. Four members gave over 500 hours each; they were Mmes. L. O. Landesco, Von N. Marshall and P. A. Soonhoven.

Mrs. Paul Fellows recalled that the four women who met with newly appointed administrator, Louis Peelyon in 1952, before the hospital was built, are still active — Mmes. Vinard Francisco, Von N. Marshall, Forester Coutts and Paul Fellows. The auxiliary now numbers 625 members.

Junior Auxiliary members receiving awards were: Linda Ball, Barbara Brundo, Linda Cory, Paula Dial, Joanne De Vlieg, Karen Kling, Donna McDougal, Elizabeth Mercurio, Eileen O'Farrell, Yvonne Paris, Anne Phillips, Carolyn Reed, Carol Richey, Charlene Rietz, Virginia Sawyer, Karen Stans.

blury, Marilyn Strimple and Andra Teeter.

Grossmont Area meeting will be held Friday in the home of Mrs. James Smith, 10265 Vista de la Cruz, Mt. Helix, at 10 a.m.

Southland Area meets Tuesday at Mrs. Don Smith's, 3552 Ybarra Rd., Spring Valley, at 9:30 a.m.

Spring Valley Lioness Club Starts Season

The Spring Valley Lioness Club had its first meeting recently at the Singing Hills Country Club following a summer recess.

Mrs. Wendell Wilkinson, the new president, presided over the meeting and introduced a guest, Helen Baxter, president of the San Diego Lioness Council.

After a dinner discussion followed on the coming annual fashion show from which the proceeds are used to aid the visually handicapped who need specially trained teachers, Braille writers, etc.

This year the fashion show will be held October 6 at the Palm Room, U.S. Grant Hotel. Marston's will present the show and the theme will be "Have a Holiday." Hawaiian costumes will be worn by the hostesses.

The Spring Valley, La Mesa, and Lemon Grove Lioness Clubs are on the decorating committee.

Woman's Club Sets Bake Sale

Plans are under way by the Casa de Oro Women's Club for a bake sale, to be held Oct. 17 from 9 a.m. to 1 p.m. in front of Stan's Market, Casa de Oro. Proceeds from the sale will go into the club's building fund and for their philanthropic work, this year being for the Edgemore Geriatric Hospital.

Next meeting of the club will be Oct. 14, at the home of Mrs. Hettie Morrison, 3625 South Granada St. Mrs. Nina Bussing will be co-hostess. New members will be initiated and revealing of secret pals will be in order.

BOOKLETS OUT

Soroptimist Clubs of La Mesa and El Cajon have provided 3,000 copies of a booklet entitled *You and Your Job* for distribution to students of the five schools of the Grossmont Union High School District. The four page pamphlet is designed to help a student learn how to get and keep a job.

'Health Foods' Talk Presented

"Why I Shop In A Health Food Store" was the title of a talk by Mrs. T. R. Carlton of Spring Valley, at the Sept. 23 meeting of the Spring Valley Women's Club.

Mrs. Carlton, a member of the club and former owner of the Lemon Grove Health-Ful Foods store, is an authority on nutrition. She likened the care of the human body to that of a car, stating that both need "good food."

The regular card party of the Spring Valley Women's Club was held Wednesday at 1 p.m. in the S.V. Chamber of Commerce hall, 9050 Memory Lane.

Hospital Auxiliary Sells Harvest Ball Decorations

Harvest Ball decorations, gold scales filled with pastel grapes, created by Mrs. Warren Salenec, decor chairman, have been sold, according to last reports.

The 60 centerpieces will be used at the dinner and dance Saturday, Oct. 3 at El Cortez Hotel, marking the sixth annual ball of Grossmont Hospital Auxiliary. Mrs. Frank N. Evans is general chairman and Mrs. Von N. Marshall, president, of the auxiliary.

Following 7:30 dinner, the traditional presentation ceremony will be held for 31 daughters of members who have been trained by the auxiliary for community service volunteer hospital work. Louis Peelyon, hospital administrator, will introduce the girls and their fathers this year.

Usherettes, chosen from last year's presentation class, will seat the guests under the direction of Mrs. I. E. McDougal and Mrs. Norman O'Farrell. They

will be the Misses Joanne De-scales, Sharon Kelly, Karen Kling, Elizabeth Mercurio, Yvonne Paris, Anne Phillips and Marilyn Strimple. Escorts will join these junior members at the completion of their duties at 9 p.m. and enjoy the ball in a reserved section.

Mrs. McDougal met the girls at an instructional meeting in her home last Thursday at 7:30 p.m.

Presentees and their escorts were entertained at an informal barbecue party in the Rupert Linley home, Lakeside, last Sunday. This get-acquainted-before-the-ball party is annually sponsored by presentee parents, hosts this year were Messrs. and Mmes. Rupert Lindley, Edgar Stong, Edward Reed and Jens Hutchens. Their daughters assisted with arrangements which included a ball game, pingpong tournament, shuffle board, dancing and a hamburger fry.

In the special class at Golden Avenue School in the Lemon Grove School District, children learn coordination, arithmetic, grammar, spelling and writing—all by using their hands. In photo at left, boy is putting nails into

a frame for weaving. He learns muscular coordination by using the hammer, learns arithmetic by counting to make sure that each side has the same number of nails as the opposite side. In center picture, boy learns to

read and to count. Girl at right is learning muscular coordination as she begins gathering raffia strips which eventually will be braided into a rug.

Special Class Teaches Youngsters How To Do Things With Their Hands

By Don Wilson

"Some children," said James Gilliam, "are not able to grasp ideas. They must see the thing, touch it with their hands, before they can understand it."

We were in a special class at Golden Avenue School in Lemon Grove, where Gilliam teaches youngsters who are slower at their studies than other children of the same age.

Some of the children (there are 12 in the class) have some slight physical disability, which partially accounts for their slowness in grasping ideas, Gilliam said. All have been placed in the special class as a result of achievement tests which are given to all children in the school district.

The object of the class is to teach the children such things as arithmetic by the use of their hands. They make frames for weaving, for instance, and learn arithmetic by counting to make sure that each side of the frame has the same number of pegs as the opposite side.

They learn muscular coordination, which will be vital to them later as they develop manual skills that will allow them to make a living in some trade. Some members of the class are learning to braid raffia rope in various colors. As they produce properly smooth and tight ropes they develop muscular coordination.

After the ropes are made, they will be sewed together in a concentric circular pattern to make a thick rug for the floor of the classroom.

One of the next projects will be a "growing" experiment. The youngsters will learn arithmetic by counting and keeping track of the number of seeds of various kinds that they will plant in flower pots.

They will be learning the practical aspects of how to raise plants for food or beauty.

They will learn grammar and

writing skills by making progress reports on the growth of their plants. At the same time, they will be learning the practical aspects of how to raise plants for food or beauty.

With the school year barely underway, Gilliam has most of his projects still in the "proposed" stage. The children will use special rubber molds and special modeling clay to make small bits of "sculpture" which they will paint and which can be hung on the wall. In this project they will learn skills that could be used later for earning a livelihood.

In addition to teaching these coordination skills, Gilliam has one other special problem: he must be constantly alert to the physical needs of the children. A couple of them have a tendency toward seizures, which if they should occur unnoticed could lead to a child falling and hurting himself.

One of the most highly trained teachers in the district, Gilliam has studied at the University of Pennsylvania, Union College in Richmond, Va., Northwestern University and New York University. His wife, a psychiatric social worker, "confers" with him in the evenings to help solve some of the mysteries of the patterns of behavior of the pupils.

Together, they are working toward developing a class where

pupils who otherwise might become misfits in society can be trained to be a part of society.

"It is unfortunate," Gilliam said, "that parents of many such children are ashamed at the thought that their child is not 'normal' just because he might not be able to achieve at the same rate as other children."

"After all, what can be considered 'normal'? Some children can do arithmetic remarkably well, but are unable to learn to write. Or they can draw pictures well but cannot count."

"What we are doing in this class is putting together the children who are unable to learn the 'mental' things as rapidly as other children, but who can learn physical things."

"These children need personal attention. They also need mother love — and this doesn't mean 'mother' love. We give them the attention that they need. We are working to teach these children in the one way that they understand — by showing them how to use their hands."

Then the alarm bell rang for a fire drill at the school. As I left, I looked back at the several hundred pupils lined up on the school ground.

Try as I did, I couldn't tell Mr. Gilliam's "special" pupils from all the rest.

Rock Plant Operation Okayed by Planners

SAN DIEGO (CNS) — A special use permit for a sand and gravel and rock crushing operation in the bed of the Sweetwater River, between La Presa and Sunnyside, was approved Friday by the County Planning Commission.

But commissioners disagreed among themselves on the issuance of the permit and did take away part of what was asked by the applicant, a subsidiary of the V. R. Dennis Construction Co.

Permission to use the sand and gravel borrow pit just upstream from the Sunnyside bridge was refused by the commission, but it did approve a permit for a sand and gravel pit, a processing plant and a rock crushing plant a little further upstream and a rock quarry opposite the Sweetwater Dam.

All three operations have been protested by property owners in the area, and Commission Chairman C. J. Martin Friday advocated asking Canyon Rock Co., the applicant, to find a new route for its road to the area where it is proposed to crush rock and process sand and gravel. He said he thought the sound of trucks straining up the grade would be a hardship to residents.

Martin also suggested that some investigation be made of having the rock crushing done at the quarry, rather than at the downstream location.

When he got no agreement from his fellow commissioners, Martin voted against recommending to the County Board of Supervisors that the permit be granted.

Final authorization of Supervisors is needed for issuance of the permit, and area residents present at Friday's commission meeting said the commission's recommendation would be protested to Supervisors.

Martin's was the only dissenting vote cast on Commissioner Gilbert Ray's motion to recommend that the permit be granted as requested, except for the exclusion of the sand and borrow pit further downstream.

Stop Controls Turned Down

SAN DIEGO (CNS) — A request for stop controls on Vista Drive at Helix Street, Spring Valley, was turned down Tuesday by the County Board of Supervisors.

The request came from J. R. Stobbs, 3004 Helix Street, Spring Valley.

In its denial, the board followed the recommendation of the San Diego County Traffic Committee that traffic at the corner does not warrant controls such as stop signs.

Supervisors did, however, approve installation of a standard warning reflector at the head of the "T" intersection facing downhill traffic on Vista Drive.

There's more, but that gives you the idea.

I phoned the radio station.

"You ever listen to the words of that song?" I asked.

"Yeah," the disc jockey said. "They're bizarre and a bit gory in spots."

Why do you play it?" I asked. "Have to," he said; "it's on the network. And besides, we don't have much choice about what records we play. The ASCAP (that's the American Society of Composers, Authors and Publishers) tells us what records we can play and what ones we can't play."

"Well," I said, "can't you just stop playing a record?"

"I guess so," he said; if enough people get upset about the record and phone or write in about it, maybe we'd drop it."

So I thanked him and hung up. Like I said in the beginning, kids seem to have a new kind of

La Mesa Signs Pact For Use of Sewers in Spring Valley

SAN DIEGO (CNS) — An agreement between the City of La Mesa and Spring Valley Sanitation District has been approved by the County Board of Supervisors.

The agreement permits the city to connect to the sanitation district sewer lines, with the city paying the district \$2.75 per month for each family dwelling unit that uses the district sewer lines.

Only the part of La Mesa for which a sewer system installation is planned under the 1911 act, near the district, would be affected.

LEMON GROVE REVIEW

AND SUBURBANITE

OCTOBER 1, 1959

SECTION A—PAGE 1

Once Over Lightly

by Don Wilson

Perhaps I'm getting a little fussy in my old age, but it seems to me that the kids nowadays have a different kind of hero than the kids in my day used to have.

This opinion started forming the other day when I was repeatedly beaten about the ears by a song being played on the radio. For the first dozen or so times that I heard the song, it was just the normal "popular" song, with a catchy tune and unintelligible words.

Then the force of habit of being a reporter took hold. In my business, you learn to listen to what people are saying.

So I started listening to the words of the song.

It was Bobby Darin, I discovered, singing "Mack the Knife."

Want to know what this popular song says? (Keep in mind the fact that I set these words down by listening to the record and won't vouch for their accuracy but at least you'll get the idea.)

Well, it goes something like: "Oh, the sharp thing has such teeth, dear, and it shows them pearly white."

"Just a jack knife has old man Heathcliff (?) and it keeps sister out of sight; you know when that sharp bite with its teeth digs, scarlet billows start to spread; and (here I lost it entirely) so there's never, never a trace of red."

"Now on the sidewalk on Sunday morning lies a body just oozing life; eek! and someone sneaking 'round a corner; Could that someone be Mack the Knife?"

There's a tugboat down by the river, don't you know, with a cement bag just stooping on down; of that cement's just, is there, just for the weight, dear;

"Five will get you ten old Macky's back in town."

"Now did you hear about Louie Miller? He disappeared, babe, after drawing out all his hard-earned cash;

"And now Mack he's spendin' just like a sailor; could it be he's done something rash?"

(Here follows an unintelligible batch of words which probably is a list of girls' names . . .) . . . and Lucy Brown. Oh, the line forms on the right, babe, now that Macky's back in town."

There's more, but that gives you the idea.

I phoned the radio station.

"You ever listen to the words of that song?" I asked.

"Yeah," the disc jockey said. "They're bizarre and a bit gory in spots."

Why do you play it?" I asked. "Have to," he said; "it's on the network. And besides, we don't have much choice about what records we play. The ASCAP (that's the American Society of Composers, Authors and Publishers) tells us what records we can play and what ones we can't play."

"Well," I said, "can't you just stop playing a record?"

"I guess so," he said; if enough people get upset about the record and phone or write in about it, maybe we'd drop it."

So I thanked him and hung up. Like I said in the beginning, kids seem to have a new kind of

hero in this Mack the Knife. But maybe it's just that they haven't been able to understand the words.

Throwin' the Bull

by Bob Turnbull

Overheard in a local bar: "My wife told me I should relax by taking up a nice sport—by the way, what is Russian Roulette?"

. . . Vermont must be getting cold. Diane Varsi is comin' home . . .

. . . Pat Grace, Jim Grable and B. J. Vinyard, three salesmen for Spears Ford Company, attended a big Ford meeting in Hollywood the other day. Following their meetings I joined them and we all had a ball making the nite club rounds (stag, naturally) to catch Errol Garner at the Crescendo and Lionel Hampton at the Moulin Rouge. Gentlemen, thank you for a great evening . . .

"I'm doing fine," said the script writer. "I drove to Vegas in a \$6,000 Caddy and came back in a \$55,000 bus."

NO BLUES AT BEN'S

Nothing sad or quiet at Ben Blues Supper Club on Wilshire in Santa Monica. Had the pleasure of escorting Ben's niece, Doreen Tracey, to one of his shows. It was the greatest in food, drink and entertainment. Ranks high on my recommendation list. Now appearing as a featured entertainer is a gorgeous dancer and singer, Gail Ganley . . .

Rumor has it that Tuesday Weld and Judi Meredith have formed a "Beachnik Club."

Helen Joseph has snagged a comedy role in "Clearing in the Woods" at the Morgan Theatre in Santa Monica. Opens October 9.

"DENIM" KIDS RETURN

20th Century Fox is thinking of filming "After Blue Denim" with Brandon and Carol again starred. It would deal with their lives after the baby arrives . . .

Then there's the guy who proved you CAN take it with you—was lowered into his pine box with his credit card with him . . .

Dick Shawn, currently at Hotel Tropicana in Las Vegas, was signed by 20th Century Fox to a two year contract. Starts featured role in "Wake Me When It's Over" in a couple of weeks . . .

Joe E. Lewis had a good day at the Pomona Track—got 19 bucks for his wrist watch . . .

Look for "Throwin' The Bull" to be my new title. "Hollywood Highlights" will deal with film and legit reviews.

Until tomorrow, Vaya con Dios!

IN GERMANY

U.S. FORCES, GERMANY (Spcl.) — Army Capt. James W. Barker, son of Mr. and Mrs. Edwin F. Barker, 6757 Hibiscus St., Lemon Grove, recently arrived in Germany and is now a member of the 82nd Ordnance Battalion. Executive officer in the battalion's 9th Company, Captain Barker entered the Army in 1949. His wife, Martha, is with him in Germany.

A NEW SIGHT — Mt. Miguel High School sophomore Judy Giacinto, a recent arrival from Detroit, reaches up toward bananas ripening in Lemon Grove—the first that she has seen.

Supervisors Set Hearing On Broadway Controversy

SAN DIEGO (CNS) — A public hearing on the county road department's opposition to improving Broadway, Lemon Grove, without center islands will be held before the County Board of Supervisors at 2 p.m. next Tuesday.

The request for the hearing was made by Jackson Ammons, who said the question involved is whether Broadway is to be "a business street or a freeway."

Community feeling for and against islands in the center of Broadway is being expressed to Supervisors.

Road Commissioner David K. Speer reported to Supervisors that he opposes a no-islands improvement program because it will not carry enough traffic, because it will result in more accidents and because it does not permit the best means of caring for the difference in altitude on the two sides of the streets.

His stand was supported this week in communications received by Supervisors from the Broadway Development Co., Ralph Little and Daniel F. Thren.

But other letters against the

center-islands were received from the Lemon Grove Chamber of Commerce and a group of property owners.

The chamber has favored the plan for a 62-foot street without a dividing area between the two two-lane lines of traffic. William Parker, chamber president, appeared to speak for the plan at a hearing a few weeks earlier before Supervisors.

Agreement on how the road should be improved seemed imminent a few weeks ago. Ammons said Tuesday that Supervisors should be prepared next Tuesday to give speakers time to "kick it around." He asked for the afternoon hearing, so there would be ample time for discussion.

Stop Sign Voted Down

SAN DIEGO (CNS) — A "stop" or "yield" sign at Challenge Boulevard and Calavo Drive east of Casa de Oro would be unduly restrictive, the County Board of Supervisors ruled Tuesday in rejecting a request by the California Highway Patrol for such controls.

In its denial, the board followed a recommendation of the San Diego County Traffic Committee. The committee pointed out that it felt the volume of traffic was not sufficient to warrant signs and that all four approaches to the intersection are presently posted with intersection warning signs.

Man is the only animal that laughs and weeps; for he is the only animal that is struck with the difference between what things are, and what they ought to be.

— William Hazlitt

Sewer Construction Plan Approved

SAN DIEGO (CNS) — A resolution of intention to construct a sewer system for 261 acres in five areas of Spring Valley was approved Tuesday by the County Board of Supervisors.

The general community is Casa de Oro, and the project was described as the Conrad Drive area, in the Spring Valley Sanitation District.

Warren Barney, engineer for the county public works department, said the cost of project is estimated at \$187,152, with assessment to be between \$8 and \$9 per front foot.

A BIG EVENT — Mrs. Lawrence Glode, general chairman, and Mrs. Robert Love, in charge of entertainment, discuss events of last Sunday's meeting of Beta Sigma Phi, international sorority.

The local council was hostess to the Mission California Council of the sorority in the El Cortez Hotel. A Hawaiian theme was followed.

College Men Travel Deep Into Mexico Seeking Marigolds

A Lemon Grove student from La Verne College, along with another student and their professor, has returned from a 12-day exploration trip into Mexico — to find marigolds.

The trip was the first step in a project resulting from a National Science Foundation grant to La Verne College for basic research. The men will attempt, through collection and observation, to discover everything possible about specific species of the plant, from smell to use.

Prof. Robert Neher, Harvey Good of Lemon Grove and Ken Whipple of San Dimas traveled 3,500 miles in search of three species. As a reward for their efforts they found one additional, unexpected species.

The group traveled and lived in a three-quarter-ton truck belonging to the Harry Whipple family, with a "camper" added for comfort. They carried their own food, water, sleeping bags, one spare tire, and patching equipment.

The men reported rain from the border to Mazatlan, 1,000 miles south. Washouts in roads and bridges led to fording numerous streams. In desperation at one point they crossed a river via a railroad bridge.

They are convinced that roads are built by hand with such tools as a wooden "road tamper," which they acquired. Going south along the Gulf Coast, they crossed to the interior by way of a mountain road under construction from Mazatlan to Durango. The first day they drove 75 miles in 12 hours, most of the time in first or low dual gear. Fortunately, they hit the area during the two days of the week the road was open. Other days are used solely for labor on the road, which they were told, would soon be closed permanently for two years to complete the project.

Beautiful scenery made up for inconvenience. The pass, going up to approximately 9,000 feet elevation, was green, lush country, considered to be some of the most beautiful in Mexico and similar in appearance to the Grand Canyon.

In addition to marigolds the men returned with several fairly rare Mexican-Indian rugs, machetes, and sarapes.

Later this year they again will load up the truck and travel the border into Texas for more research information.

Harvey, a senior at La Verne College, is the son of Mr. and Mrs. Jacob B. Good, 1906 Englewood Dr., Lemon Grove.

VOGUE SECTION TO MEET

G. B. Shaw Comedy On Fall Schedule At State College

"Misalliance," George Bernard Shaw's happiest and wackiest comedy, will be the first Aztec Theatre Guild production of the fall semester at San Diego State College; it will be presented October 23-24 and 29-31 at 8:30 p.m. in the Little Theatre on the campus.

Written in 1910, this play about the conflicts between age and youth was "re-discovered" in a highly successful 1951 Broadway revival. Dr. William J. Adams will direct the San Diego State College production, with scene design by Don W. Powell. Both are associate professors of speech arts.

Two more Aztec Theatre Guild productions are scheduled for the fall semester, Adams said. In December, assistant professor Richard Harris, a new member of the department faculty, will direct. In January a master's thesis production will be directed by Walter Stump.

Last year Adams directed "The Beggar's Opera" and "Victoria Regina" at the college.

A scientist says it is the lower part of the face, not the eyes, that gives away one's thoughts. Especially when one opens the lower part of the face.

— Irish Digest.

Edna Johnson Dies at 62

Edna M. Johnson, 62, of 2985 Citronella Street, Lemon Grove died Saturday at her home after returning from a hospital following surgery.

She had lived in San Diego County for 24 years and for the last nine years worked as a clerk at the Lemon Grove Drug Store. Survivors are her sons, Thomas J., Charles E., and Bill D. Johnson. Also surviving are her sisters Loy McClusky, Mrs. Latain McCauley and Mrs. Tommy McCauley, a brother, Pete McClusky, eight grandchildren.

Funeral services were held Wednesday at Greenwood Mortuary.

Telephone Co. Starts Building Expansion

Construction of a second story on the Pacific Telephone Co. building in La Mesa began last week.

The La Mesa office serves as headquarters for the Hopkins exchange which serves also Lemon Grove and Spring Valley.

The addition, according to Dick Rose, manager, will cover 5,600 square feet.

Champion Construction Co., a San Diego firm, was awarded the contract by the phone company. Current schedules call for the building phase to be completed next March. The enlarged quarters will be used for additional equipment.

Starting next summer, Western Electric will begin a major installation project adding 3,000 lines to the office capacity and 4,000 new telephone numbers for the area's future growth.

The entire project will be ready for service late next year at an overall estimated cost of \$544,000, Rose said.

This is the seventh enlargement of the local building which was originally constructed in 1928. Five of the office additions have come since 1946.

Man is merely a more perfect animal than the rest. He reasons better.

— Napoleon I.

Job's Daughters To Initiate New Members

New members will be initiated at the October 7 meeting of the local Bethel of Job's Daughters, according to Betty Clevenger, honored queen.

October activities also will be discussed.

At the last meeting of the Bethel, a new marshal was elected and a new chaplain and a new outer guard were appointed. The new marshal is Peggy Taylor, who took over from Genie Cooper.

The new chaplain is Karen McKinney and the other guard is Jerry Taylor. The three new officers were installed during the meeting.

ORIENTAL STYLIST TO ADDRESS ARTISTS

The La Mesa Foothills Art Association will hold its monthly meeting this Thursday at the La Mesa Memorial Fine Arts Center, 8055 University Ave., La Mesa, at which time Lt. S. J. Sowinski, will be the speaker of the evening. He also will give a demonstration of how he paints his water colors, in various techniques. Lt. Sowinski's water colors, in oriental style, provided one of the outstanding one-man shows at the La Mesa Fine Arts Gallery last spring.

God's Minute

"Promise To Prayer"

Jesus promises that every prayer will be heard and answered on the condition that the Name of the Father may be glorified in the Son. God's answer may be "Yes," "No" or "Wait." The answer will be according to God's Will and in His time.

L.G. Lutheran Church Message

Adult School Offers Carpentry Program

Labor, management, and education join forces in an apprentice carpentry program offered to young men by the Grossmont Adult School. Designed to produce a journeyman carpenter, the four-year course combines an eight-hour on-the-job work day plus two evenings per week of classroom work.

The program is under the direction of Harry Riley of the Grossmont Adult School administrative staff. He is one member of a governing committee which consists of four members from the union, four members from interested management, and a representative from the California Bureau of Apprenticeship Standards. The committee meets once a month to determine progress of the men in the program.

Night classes twice a week present phases of the work which cannot be done on-the-job. These include blueprint reading, study of exterior and interior trim, estimating, layouts, use of power tools and so on. This part

of the instruction requires six teachers who hold vocational teaching credentials and who are experienced in the building trades.

The program, now in its third year, developed from the request of a local union and is similar to this phase of the vocational program at San Diego Junior College. At present there are 150 men registered for the course. Most of them are married and looking forward to the journeyman's rating.

Young men from 17 to 27 are eligible for enrollment in the program and are tested for aptitude and ability by the California State Employment Service. Further information is available regarding this program and that of vocational nursing at the Grossmont Adult School, HO 3-6689.

ECONOMICS CLASSES OPEN TO PUBLIC

Free evening classes in fundamental economics are being offered at Palm Avenue School in Lemon Grove and Helix High School in La Mesa by the Henry George School of Social Science. Classes start at 7:30 p.m. Tuesdays, in Room 3 at Palm Avenue School and in Room 11 at Helix High.

United Fund Office Opens in La Mesa For Local Drive

The United Fund branch office for this area is open for business at 5159 Baltimore Dr., La Mesa.

R. F. Snell, an executive "on loan" from Pacific Telephone and Telegraph Co., is in charge of the office. Mrs. Judith Dearmond is his assistant.

The office is in the Narmco Manufacturing Co.'s Plant 2, and is open from 8:15 a.m. to 4:30 p.m. Mondays through Fridays.

Snell said the office is a meeting and training place for United Fund volunteer workers.

The office will service approximately half of the county during the annual United Fund campaign which opened Sept. 14 and runs through Oct. 30. Goal this year is \$3,123,425.

Supported through the United Fund are all nine Community Chests in San Diego County, all of their Red Feather agencies, plus the American Red Cross and numerous other health and welfare agencies.

Through the United Fund's one annual drive, it is possible to support any kind of health and welfare program or service with only one gift in only one drive. Agencies supported through the United Fund do not conduct separate campaigns for operating funds.

KENNEDY TO VISIT

Senator John F. Kennedy (D-Mass.), will be in San Diego Saturday, October 31, to address a fund-raising dinner sponsored by the San Diego Democratic County Central Committee, according to Brown Van Voorhees, Chairman. Senator Kennedy will tour California that weekend on behalf of his candidacy for the Democratic nomination. The San Diego appearance will be his first major stop in California. Voorhees said that Democrats in San Diego County will honor Kennedy at a \$10-a-plate function at 8 p.m. October 31, in the Palm Room of the U.S. Grant Hotel.

Deep Watering Most Beneficial To Home Lawns

Frequent sprinkling or shallow irrigation of your home lawn may make you feel better but it is not recommended. According to Seward Besemer, University of California farm advisor, such irrigation has several disadvantages:

Greater total water use; develops shallow rooting; severe burning of the root system can be expected from a couple days' neglect; causes rapid build-up of salinity due to lack of leaching; encourages shallow-rooted weeds, particularly crab grass; produces an environment favorable to diseases; keeps the surface soil in condition for maximum compaction; demands more hours of maintenance.

The public should not be confused by comparing the manicuring operation of putting-greener management with home lawn care. Lawns should be watered deeply with at least one-half to one inch of water at each irrigation, applied once or at most twice a week or even longer, depending on soil, temperature and the kind of grass or ground cover.

Pastor Begins Book of Nehemiah Sunday Series

Rev. Bernard Olsen, pastor of the La Presa Community Church, Jamacha Rd., is currently starting a series of texts on the Book of Nehemiah, to be presented at the 11 a.m. Sunday services. The young folks continue to meet at 6 p.m. Sundays and their group continues to grow, according to a report last week. Evening services are at 7 p.m. The Sunday School classes are also on the increase, the report stated. A picnic was held by the Sunday School recently at El Monte Park, with 36 people attending. Rev. Olsen has been attending the Christian Men's Alliance Conference in San Diego.

NEW STUDENT

Anna Lee Harlan, 7415 Roosevelt Ave., Lemon Grove, daughter of Mr. and Mrs. Robert Harlan, has enrolled in Westmont College in Santa Barbara. There are 460 students in the college.

College Sorority Names Grove Girl As President

The fall pledge class of Gamma Omicron chapter of Delta Zeta Sorority has elected Miss Linda Denlinger as its president.

Miss Denlinger, who resides at 3240 Alton Drive, Lemon Grove, is a graduate of Mt. Miguel High School where she was active in the Cavel Club, the Future Teachers Association, and was chairman of the Senior Play. She is majoring in Physical Education at San Diego State College and has plans to do graduate work in the field of counseling.

Other members of her pledge class include the Misses Jean Colonell, Judy DeWoody, Cheryl Dudley, Carol Erickson, Liz Geiser, Georgine Maulis and Madalyn Miller. The formal pledging ceremony was held Sunday evening at the Delta Zeta Sorority House at 5074 College Ave.

Planners Deny Commercial Zone For Medical Clinic

SAN DIEGO (CNS) — A request for commercial zoning to permit expansion of a medical clinic in Lemon Grove was denied Friday by the County Planning Commission.

But the commission then voted on its own initiative to start new hearings so that residential-professional zoning could be given the applicants, to accomplish the same purpose.

The application for C zoning for east side of Olive Street, between Church and Daytona, was made on behalf of the Lemon Grove Medical Group. They were represented at the hearing by Richard B. Miller, of the Percy H. Goodwin Co.

Miller said his clients wished to expand their medical clinic and had purchased the land for the expansion. He said business zoning in the block to the north indicated it would be the best use for the property in question.

Miller said, however, when asked if his clients would accept the "r-p" zoning, that he thought they would. He also declared he thought they would cooperate in giving land for the widening of Olive.

The commission voted to instruct its staff to call a hearing on residential-professional zoning for the area.

Flashing Light Legislation Held For Upcoming Code

SAN DIEGO (CNS)—County legislation against all flashing advertising lights along streets and roads has been delayed before the County Board of Supervisors.

The Board several weeks ago ordered preparation of an ordinance to outlaw such advertising, but action on the law was put off at the request of the county counsel's office.

Inquiry after the Supervisors' meeting disclosed that all traffic regulation are being codified, and it was decided that inclusion of the anti-advertising regulations would be better in the codified traffic ordinance than in a separate law.

Regulations against flashing lights on county highways and streets were recommended by the traffic safety committee. The law would give power to the road commissioner to take down any signs that flash onto the right of way on the grounds that they interfere with public safety.

The traffic committee recommendation was particularly directed against red and yellow signs, these being the most common lights used for police, ambulance and traffic warning signals.

Minors Need Permit For Work, Says Schools Official

Working minors and their employers were reminded this week by Dr. Erven Brundage, director of pupil personnel service for the county schools, of the requirement that all employed youth under 18 years of age must have valid work permits.

They also were warned that all current work permits issued by school authorities automatically have expired. Exceptions are made only for high school graduates, married minors, and minors who will reach their 18th birthday shortly after the re-opening of schools. The expiration date on all permits is indicated in the upper right-hand corner.

The minor is responsible for securing a new work permit, Brundage said. The student should obtain an application form at the County Schools Service Center, 4005 Rosecrans, or at the placement center at Grossmont High School.

The employer is responsible for terminating the employment of any minor for whom he does not have an active permit or for whom an application for a permit has not been made.

Minors aged 16 and 17 are permitted by California law to work 44 hours a week provided they obtain work permits and attend continuation classes four hours a week. Minors residing in county school districts attend continuation classes as provided by each district.

Information regarding work permits and matters pertaining to child labor laws may be obtained by calling the County Schools offices.

"CITIZENSHIP"

It is a wonderful privilege to call ourselves citizens of the United States. There is another privilege which is even greater and more enduring, citizenship in the Kingdom of God. This citizenship is received through the new birth whereby a person is released from the slavery in sin and made a free man in Christ. Entrance into God's Kingdom is found at the foot of the cross. As you kneel there confessing your sins, a new life of freedom opens before you.

LIONESS — Local officials of the Lioness Club prepare decorations for a San Diego Area brunch set for 11 a.m. Tuesday in the Palm Room of the U.S. Grant Hotel. A program of fall fashions is scheduled. The club is working on a project to aid the visually handicapped of San Diego and Tijuana. In photo are, from left, Mrs. Paul Louer, decorating chairman; Mrs. Ray Erwin, Lemon Grove publicity chairman; Mrs. Forrest Baxter, president of the Lioness council, and Mrs. Grant Hadley, decorations co-chairman.

Women's Club Hears About 'Book Magic'

"Book Magic" was the theme of Mrs. Edwin F. Bryant, State Chairman of Literature and Drama of California Federation of Women's Clubs, as she addressed the Lemon Grove Woman's Club on September 25, at 1:30 p.m., at 2810 Main St.

Mrs. Bryant discussed several books. She has had 28 years of continuous Federation service at all levels. She is a graduate of Stanford University with an AB in English, has studied in Europe and traveled extensively there and the United States. President of many organizations in her city at various times, she also has conducted radio programs in her particular fields, and before marriage was a teacher of English, Drama and Speech in San Rafael High School.

Spring Valley-San Diego Sewer Contract Okayed

SAN DIEGO (CNS) — A contract between the Spring Valley Sanitation District and the City of San Diego, with the city to use the district's lines, was approved Tuesday by the County Board of Supervisors.

Supervisors are also directors of the sanitation district, and their approval permits the city to connect to the district for 330 parcels of land in the Narragansett Heights area, at a service charge of \$2.75 per month for each dwelling unit.

Square Dance News . . .

MERRY WHIRLERS

The Merry Whirlers first dance at the El Cajon Women's Club was a big success. We hosted the Valley Vagabonds and their caller, Kip Muse. Had a fine turnout. Also had guests from the Promenaders, Wheeling Stars, Rangers and Hi Hill Squares from Ontario. We all had a fine time dancing to the calling of Ron East and guest callers Kip Muse and Al Rider.

Our next dance will be Friday Oct. 2, 8 to 11 p.m., El Cajon Women's Club, Gillespie Field, El Cajon. We will be hosting the Dancing Dudes and their caller Dell Lake.

FRONTIER SQUARES

Frontier Squares dance on the second and fourth Saturday nights at Spring Valley Junior High School on Conrad Street off Campo Road. All square dancers are welcome.

Everything possible is arranged to make your visit to the club enjoyable. You will have an intriguing "workshop" between 8 and 8:30 and there is a hostess committee to make you feel "right at home." Door prizes are given away to add to the spirit of the evening, but no raffles or long "breaks" to irritate you. Delicious refreshments are served, and tables and chairs are now available for your comfort, as well as ice-cold water to cool off those "hot tips!"

All this along with the delightful callin' of the "Wild and Mild One," Bill Keller, makes this a club you do want to visit soon.

PROMENADERS

The Promenaders Square Dance Club, meeting in the Spring Valley Chamber of Commerce hall, 9050 Memory Lane, will have its annual dance Saturday night, dancing from 8 to 11 p.m. Tickets are now on sale, as the dance will be open to the public. Door prizes and others will be given and there will be a buffet supper. For reservations call Mrs. Bertha Galinas, HO 6-2023. Frank Dyson, who has been caller since the club was formed, will be club caller. Guest callers will be Del Lake, Ron East, Al Rider, Kip Muse, Fred Myers, Tom Montague and Frank Payne.

The Promenaders Square Dance Club was originated on Oct. 31, 1949, with 14 squares (120 people). At that time it was known as the North Island Recreation Association Square Dance Club. One year later the name was changed to the present Promenaders Square Dance Club. For the first year the club danced in the Conference Hall in Balboa Park, and then in April of 1950 moved to Spring Valley. The club has 10 squares or 40 couples, but there are many more clubs now than when the Promenaders first started.

COUNTRY COUSINS

The Country Cousins will be visited by a group from the Legion Squares of Lynwood on October 24. A gala time is anticipated. Everyone is cordially invited. Our Saturday party night was a happy occasion.

IT'S SCHMIT'S LIQUOR

- DELICATESSEN
- ICE CUBES

9155 Campo Rd.
Spring Valley
Spring Valley

Many visitors were present to dance with us. To make our evening complete our caller Ray Columbe was in rare form and kept the dancers on their toes.

LEVIES AND LACES

"Come down and have fun." This invitation is extended to all square dancers for our October 3 Party Night. We always have a nice crowd and a lot of fun. There will also be live music and plenty of refreshments.

Recently, our caller, Clarence Montgomery, was given a surprise party by the club members. Bill Keller and Ron East relieved him of his duties for the evening, and he was presented with a huge birthday cake, gifts, and a lot of cards.

An intermediate and brush-up class is now in progress at the Lemon Grove Women's Club on Monday nights at 8 p.m. We also have our regular club dance every Wednesday night which is open to all square dancers.

GADABOUTS

The Gadabouts teenage square dance club will hold a Masquerade Dance Saturday night from 8 p.m. to 11 p.m. at the Lemon Grove Youth Center on School Lane. The evening will be mixed with square dancing and ballroom dancing. A prize will be given for the best costume.

Sheriff's Rodeo Due on Weekend

When the action explodes in the arena of the San Diego County Sheriff's Relief Association rodeo this weekend at Westgate Park fans will see the fifth annual local edition of the rough-

est competitive sport in the world.

Performances will be presented Saturday at 8 p.m. and Sunday at 2 p.m.

One of the headliners will be Lawson Fore of Riverside. He was the nation's top money winner in 1957 and runner-up in 1958. Fore will enter the saddle bronc riding, calf roping, steer wrestling and team roping events.

Also on hand will be rodeo clown Stephen Crane and May Boss, trick rider.

Feel Like Wandering?

If you get the wanderlust one of these coming weekends, it is interesting to note that during the month of October there are many places and things to see in Southern California. For those of you in the area, if you don't want to drive too far, several things are at your back door which will be of interest:

Oct. 3 and 4 will be the Julian Apple Days. The orchards are ripening around Julian in the San Diego back country and the town will celebrate its 50th anniversary of "Apple Days" with a parade, crowning of an Apple Queen, and a melodrama written and presented by local talent.

Oct. 3-11 will be the Descanso Festival of Garden Lights. It will be held nightly from 7 to 10. Trained guides will conduct visitors through displays of every conceivable kind of outdoor lighting, along the stream among the acres of plants. It was reported that designers and manufacturers are helping to make the exhibits. The Camellia Comet

jeep train will transport people to the outlying sections.

Oct. 10 . . . Peg Leg Liars Contest, to be held at Borrego Springs. Peg Leg Smith (supposedly) said he found a rich gold mine but forgot where other persons who think they can match (or better) Peg Leg's whopper, will gather at Borrego Springs for this contest. The contest was won last year by a tale of giant African termites which dug trunk tunnels. The liars contest is part of Covered Wagon Daze, Oct. 9-11.

Oct. 23-25 . . . Palm Springs Trailer Rally. Between 600 and 1,000 trailer parties will gather in Palm Springs for a program of swimming, square dancing, chuckwagon breakfasts and scenic desert tours.

Oct. 31 . . . San Diego Fiesta of Nations. The cultural art of 20 nations will be presented in singing, dancing and costumes at the House of Pacific Relations in Baboia Park, consisting of 15 cottages, which were built during the 1935-36 International Exposition. Each cottage is decorated and furnished with imports from the country represented.

What's Doing In the PTA?

The next regular meeting of the Golden Avenue School PTA will be held at 7:30 p.m. next Thursday in the school cafeteria. A panel discussion with the theme "Problems on Parade" will be held. On the panel will be the school principal, a member of the school board, the president of the PTA and a representative of the school. A questionnaire is to be sent home with the children asking for questions about school problems.

Kenneth Martinosky, carnival chairman, says that plans are progressing for the school Halloween Carnival, set for 5:30 to 10 p.m. October 31.

The Lemon Grove Junior High School PTA executive board meeting will be held on next Tuesday at 7:30 p.m. in the homeroom. A report will be made on the membership drive, and plans for the junior high Halloween dance will be discussed. A pot luck dinner, honoring the teachers, recently was held by the executive board at the school. Hostesses were Mrs. I. L. Arms, Mrs. Ray Bierwirth, Mr. Aldena Codina and Mrs. R. C. Alexander.

Mrs. Richard Wilson, president of the Casa de Oro PTA, announces some important dates of events to be held at the school in the near future:

Oct. 5, Casa de Oro PTA board meeting. Everyone interested is invited. Plans for the annual Halloween Carnival will be discussed. At this time the annual membership drive will begin. All parents are urged to join, Mrs. Wilson says.

Oct. 15, Regular PTA meeting. There will be visits to the

various classrooms.

Oct. 31, Halloween carnival. More help is needed, Mrs. Wilson says. If you can help in any way, please call Mrs. Leonard Bender, HO 9-1345.

In November watch for the date of the father and daughter banquet.

Mrs. Wilson announces the following appointments of chairmen: courtesy, Mrs. Russell Love; social, Mrs. Martin Harbert; Founders Day, Mrs. John Shacklett; and telephone, Mrs. John Shalom.

BE Fair TO YOUR FAMILY

No matter how hard you work now to give them financial protection, you risk letting your family down later if you don't have a Will.

- Only with a Will can you see to it that your property will be distributed in the best way for your family.
- Only with a Will can you choose an experienced executor to carry out your wishes.

If you already have a Will—is it up to date? Families grow and change over the years. So do financial resources. A Will based on facts that no longer exist can't do much good.

If you haven't made your Will—or haven't had it checked in the past few years—be fair to your

family! See your attorney soon. Only he can make sure it says legally what you want it to say.

And when you choose your executor—you name experience when you name First National.

Adult School Open In Two Locations

The Grossmont Adult School is serving the Spring Valley-Lemon Grove area in two locations. The daytime center is at the Leewood Trailer Park, 7150 Broadway, Lemon Grove. The following courses are offered: ceramics, clothing, leather carving, and Spanish (3rd semester).

The evening location is at Mt. Miguel High School, 1800 Sweetwater Road, Spring Valley, with the following courses: auto mechanics, catering, drawing and sketching, English for foreign born, gardening, pattern making (clothing), physical fitness for women, Spanish (1st semester and 3rd semester), typing and woodshop.

Bomb Hoax Empties High School

Students at Mt. Miguel High School Tuesday noon went through a normal fire drill and emptied the school after two anonymous telephone calls warned that a bomb "will go off at 1:45."

Firemen of the Spring Valley Fire Department, sheriff's deputies and school officials searched the buildings after the evacuation but found nothing. A student telephone operator received the calls and said she thought the caller was a girl. Classes resumed 20 minutes after the search. Officials called the warning "a hoax."

The S.V. Fire Dept. answered two other calls during the week. On Sunday at 12:49 p.m. fire trucks were called to 8655 Troy St., where a shed at the Baker Honey Co. was blazing. Little damage was reported and the cause undetermined.

Someone threw a road flare into the bathhouse of the Carman Ranch Club on Sweetwater Avenue Tuesday evening, causing some excitement at the club. The S.V.F.D. was called, but before they arrived someone had thrown the flare outside again. Fire captain L. D. Lawton said there was no damage, but that the redness of the flare's flame in such close quarters made it appear as if the building were on fire.

Mrs. Elda Carovano, club operator, said the flare had been tossed by a youth who later confessed and offered to clean up the mess. More than 150 girls from Sacred Heart Convent were having a swimming party at the time.

Scout News

Hugh W. Olds, member at
large for the San Diego board
of directors of the Boy Scouts
of America, at a Grossmont District
meeting Sept 22 in Lemon
Grove, said the registration of
Boy Scouts in San Diego County
is falling behind.

"We are falling behind the
past two years," he said. "We
now have about 18,000 boys but
that number should increase as
we go into the fall months."

Olds said the Council goal is
22,700 boys by Dec. 31 of this
year. He said that is what should
be done to keep up the percentage
of boys in Scouting, which
has been done in past years,
based on boys available in the
county. He said that Little league
activities has taken a few
boys from the Scouting program,
but that Little league activities
should not interfere with Scouting,
as it is possible to have
both Little League and Scouting.

He asked three questions,
which he himself answered: 1.
What is a healthy organization?
Answer . . . One that is identified
by its growth. 2 . . . What
is an unhealthy organization?
Answer . . . One which remains
static, while the availability in-
creases, or one which loses num-
bers with static availability. And
3 . . . What is a dying organiza-
tion? Answer . . . One which
for several years loses numbers
while the availability increases.

Olds said that the ingredients
of a healthy organization are:
(a) A program which is good;
(b) Good leadership—professional
and volunteer; and (c) Getting
the word around and selling
the idea. In other words, good
publicity.

AREA NO. 101 - LA PRESA
COLONY R.D. NO. 6034 - SAN
CARLOS STREET et al.
NOTICE INVITING
SEALED PROPOSALS

Pursuant to the provisions of the
Improvement Act of 1911 and to
Resolution Ordering Work adopted
on September 15, 1959, by the Board
of Supervisors of the County of San
Diego ordering the work described
in said Resolution.

NOTICE IS HEREBY GIVEN that
that said Board of Supervisors in-
vites and will receive up to but not
later than 11:45 o'clock a.m. of the
13th day of October, 1959, sealed
proposals or bids for doing the work
and improvement ordered in said
Resolution, to wit: Grading, paving
and installation of curbs and nec-
essary drainage structures in SAN
CARLOS STREET et al. in LA PRESA
COLONY, Area No. 101, Road
Improvement District No. 6034, in the
unincorporated area of the County
of San Diego.

Such bids will be received in the
office of the Clerk of said Board
of Supervisors, Room 306, City and
County Administration Building, 1600
Pacific Highway, San Diego, California,
and shall in open session of said
Board of Supervisors be publicly
opened, examined, and declared.
The Resolution of Intention adopted
by said Board of Supervisors on
August 11, 1959 is hereby referred
to for a description of said work
and improvement, the grades to
which it is to be done, a description
of the district to be assessed to pay
the costs and expenses thereof, the
bonds to be issued, and for all fur-
ther particulars contained in said
Resolution of Intention. Reference is
hereby further made to the plans,
drawings, typical cross-sections and
specifications for said work on file
as Document No. 267923 in the office
of the Clerk of said Board of Su-
pervisors, in accordance with which
said work shall be done.

Copies of plans, forms of proposal,
bonds, contract and specifications
may be obtained at the office of
Donald R. Short, Engineer of Work,
Boyle Engineering, 3913 Ohio Street,
San Diego, California, for the sum
of \$20.00. Said payment is not re-
fundable.

The said Board of Supervisors, in
accordance with the provisions of
the Labor Code of the State of California,
has heretofore established the
general prevailing rates of wages
applicable to the work to be done,
which rates are as follows:

Type of Workman	Per Diem	Wage
Carpenter, Journeyman		\$28.80
Cement Mason and Cement Ma-		
son Roller Scream Operator	29.64	
Reinforcing Iron Worker	28.80	
Laborers, General or Construc-		
tion	23.04	
Concrete Mixer Operator		26.96
Skip Type		32.08
Motor Patrol Operator (any		
type or size)		32.08
Tractor Operator - Dragtype		
Shovel, Bulldozer, Tamper,

Sirloin

93¢

lb

U.S. Graded Choice

If you're a wise Super Shopper, you've already savored the rich tender juicy goodness of these fabulous sirloins at your table! To those who haven't yet enjoyed a Food Basket sirloin...bright red with blossom, beautifully marbled for tenderness, and trimmed of all excess fat...we promise an unforgettable adventure in good eating! The extraordinarily low price of these superb steaks is possible only because our quick-witted meat buyers took immediate advantage of a dip in the market. And they personally selected only the very FINEST of the U.S. Choice Sirloins for this very special weekend sale!

T-Bone U.S. Choice lb. 98c

This properly aged and perfectly marbled of superb grain-fed beef is consistently tender...a favorite with small families.

Porterhouse U.S. Choice lb. 98c

Deliciously tender and flavorful, this has been trimmed in the unique Food Basket manner to give you more good eating!

Colossus U.S. Choice lb. 93c

Food Basket's exclusive, specially thick cut of U.S. Choice Sirloin, that's both impressive and unbelievably delicious!

Top Sirloin Boneless U.S. Choice lb. \$1.59

Supremely tender, this gourmet cut has no bone at all, and has been Food Basket-trimmed to give you the maximum in delicious eating!

New York Cut U.S. Choice lb. \$1.69

One of the steaks men like best...broiled to perfection with mushrooms and served sizzling hot and marvelously tender!

Filet Mignon lb. \$1.98

A Food Basket specialty, this is the top quality served in the finest hotels and restaurants, the deluxe delicacy of the steak family!

E-Z Cut lb. 98c

Another Food Basket origination, this special cut cooks quickly to tempting tenderness. Nice to have for unexpected guests!

FOOD BASKET'S SUPER FRESH PRODUCE

Potatoes White Rose U.S. No. 1 10 lbs. 49c

Nothing will taste better with your steaks or roasts than the piping hot mealy goodness of these flavorful top quality White Rose potatoes.

Romaine Extra Fancy 2 large bunches 19c

Wonderful with a steak dinner, this crisp sparkling fresh romaine has been waste-trimmed to let you eat every leaf.

Celery Extra Fancy lb. 8c

Your family will enjoy the refreshing flavor, the crisp tenderness of these long green stalks of celery, Food Basket-trimmed so there's no waste.

Tokay Grapes Extra Fancy 2 lbs. 19c

Just as good as they look, these large, sweet, juicy, flame-red grapes make delicious lunch-box surprises...effortless desserts...and satisfying between-meal snacks.

Prices effective Thursday, Friday and Saturday.
